To whom it may concern,

My Mom was in Liberty Village for over a year. She received the best care I ever seen. She passed away & they were great during the time she was there. If the nursing homes were as good as Liberty Village I agree that we don't need another. The care the patients get are not good. Maybe if they paid more for their help it would get better. One of the good things about Liberty Village is if you run out of money they don't kick you out. You would go on Medicaid. Liberty Village is a healthcare facility & takes care of all their needs. The meals are served family style & there are a choice of two entrees. The rehab facility is the best I have seen. Please vote to let Liberty Village come to Rochelle. Nobody will be disappointed.

Thank you

Sincerely

Dixie Cline Plourde
